

New rules for using official delegation hall at Chisinau International Airport

4 december 2024, Chişinău - The cabinet today approved changes in the service process and authorization procedure for passing through the official delegation hall at Chisinau International Airport. The new provisions will contribute to increasing administrative transparency and the use of the space exclusively for service purposes.

If until now, entry and service in the official hall was carried out upon presentation of the passenger's service card, with the new changes - access will be granted only on the basis of information received from the State Chancellery and only if the person is on business trip. Otherwise, access will not be allowed.

Thus, service through the official hall will be requested by submitting a request to the State Chancellery at least 3 working days before the planned date of the flight. The request will be examined within 2 days.

The draft also provides for the adjustment of the list of persons who will be able to be served in the official delegation hall and those who will be able to benefit from paid services.
