Access to the agricultural lands in the Dubăsari district, located beyond the Tiraspol-Camenca road, has been extended until July 1, 2023.

Ensuring the unlimited and unconditional access of farmers from the Dubăsari district to the agricultural lands that belong to them and are located along the Tiraspol-Camenca route was repeatedly requested through the correspondence channel of political representatives in the process of negotiations regarding the Transnistrian regulation.

In the appeal of Chișinău, the final solution to the problem and renouncing any deadlines in this regard were requested, but Tiraspol informed about the extension of the access to the lands until July 1, 2023.

Thus, efforts and dialogue will continue until the final resolution of the issue.
