The essence of reintegration policies of the country – subject of discussions with a group of researchers from the Federal Republic of Germany and from the University of Birmingham

On June 28, 2023, a group of researchers from the Federal Republic of Germany and the University of Birmingham, United Kingdom of Great Britain and Northern Ireland, who came to the Republic of Moldova on a working visit, had a working meeting with the head of the Reintegration Policies Bureau, Alin Gvidiani.

During the meeting, information was presented about the activities and policies actively promoted by the authorities of the Republic of Moldova in order to eliminate the disparities between both banks of the Nistru River and the plenary and sectoral reintegration of the eastern districts of the country into the single national spaces, including from the perspective of the impulses offered by the process of European integration.

The Bureau evoked openness to develop a productive cooperation and to train its officials in professional development courses in the sphere of promoting peace processes, analyzing conflicts and applying high-performance techniques for conducting negotiations, offered by the external donors of the Republic of Moldova.
