The Deputy Prime Minister for Reintegration discussed the priorities of the Republic of Moldova's reintegration process with representatives of international partners

On October 7, 2026, the Deputy Prime Minister for Reintegration, Valeriu Chiveri, held a meeting with representatives of the partners of the German Marshall Fund of the United States (GMF), the European Council on Foreign Relations (ECFR), and the Platform for Security and Defence Initiatives (PISA).

The Deputy Prime Minister emphasized that the reintegration of the country is a national priority involving the active participation of all state institutions and society as a whole, while a peaceful, comprehensive, and sustainable settlement of the Transnistrian conflict remains the primary objective of this process.

“Reintegration cannot be achieved without strengthening the territorial integrity of the Republic of Moldova. Our goal is to create the necessary conditions so that the residents of both banks of the Nistru River have access to quality public services, can move freely, and enjoy equal opportunities,” Valeriu Chiveri noted.

The Convergence Fund was a separate topic of discussion, specifically the projects to be implemented within its framework that will have a direct impact on the citizens' quality of life. The Deputy Prime Minister highlighted the need to develop social and medical public services in the Transnistrian region to make them more accessible to citizens. In this context, the establishment of a family doctor center in Bender could serve as a solution to facilitate the access of the region's residents to primary healthcare services.

During the discussions, the importance of education was also addressed, including the right of children from the Transnistrian region to study the Romanian language, thereby granting them access to opportunities in the educational and professional fields.

“We have all the capabilities to invest and create conditions for a safe and prosperous life. Reintegration must be reflected in the daily lives of the people – through freedom of movement, access to quality services, education, healthcare, and modern infrastructure,” the Deputy Prime Minister for Reintegration stressed.

The interlocutors also discussed the regional security situation. The Deputy Prime Minister emphasized the key significance of the developments in Ukraine for regional security and stability, noting their direct impact on the security of the Republic of Moldova.

In the context of international cooperation, Valeriu Chiveri highlighted the effective interaction with the reliable partners of the Republic of Moldova and the importance of a constant dialogue to advance the country's reintegration process towards a peaceful settlement of the Transnistrian conflict, while respecting the sovereignty and territorial integrity of the Republic of Moldova within its internationally recognized borders.
