

Tiraspol postponed again the meeting of Working Groups for Education

Unfortunately, despite our numerous initiatives over the past two years regarding the convening of meetings of experts on education issues on both banks of the Nistru River, Tiraspol has once again postponed holding a working meeting.

Chişinău proposed to discuss numerous current problems faced by 8 educational institutions with teaching in Romanian in the Transnistrian region: provision of their own premises, increased utility tariffs, illegal registration, unauthorized processing of students' personal data, etc.

These problems remain in the constant focus of Chişinău until their final solution

We remind you that the last meeting of experts in the field of education took place on October 18, 2022: <https://gov.md/en/content/working-groups-meeting-education-held-2nd-time-year>
