

Approximately 60 thousand national model driving licenses and over 41 thousand sets of legal registration license plates have been issued to residents of the Transnistrian region

According to data extracted from the State Register of Drivers and the State Register of Vehicles, currently, 59,715 national model driving licenses are held by citizens of the Republic of Moldova residing in the Transnistrian region.

At the same time, 41,223 vehicles owned by residents of the region are documented with license plates issued in accordance with current legislation, of which:

- 27,547 national model license plates with the code “MD” and the image of the state flag;
- 13,676 neutral model license plates with the inscription “MD”.

These figures indicate a heightened interest among residents of the Transnistrian region in complying with the legislation of the Republic of Moldova and a commitment to being law-abiding participants in national and international road traffic.
