Experts of the working group on customs met online

09.06.2021, Chisinau – The sectoral experts from both banks of Nistru of the working group on customs held an online meeting today. Representatives of the 5+2 mediators and observers also attended this meeting.

The experts' dialogue focused on the customs related issues, in particular on possible ways to relaunch the transit of goods by road and to exclude the physical control of persons, goods and means of transport involved in transit, but also on the collection of additional payments related to these processes.

There was also an exchange of views on the procedures to be followed when importing several categories of consumer goods to the Transnistrian region. By exemplifying specific cases of imports by some economic agents, the Moldovan side explained the requirements established by the legal framework in force and the necessary steps meant to ensure compliance with these rules.

The experts were open to continuing the dialogue on the current issues and reiterated the need to identify solutions to the existing problems.

This is the second meeting of the sectoral working group in the current year. The first one took place online on 22 January 2021.
