The deadline for the application of the protocol decision regarding the access of farmers from the Dubăsari district to the agricultural lands located beyond the Tiraspol-Camenca road has been extended until December 31, 2022

Following the dialogue held at the level of political representatives in the process of negotiations regarding the Transnistrian regulation, the deadline for the application of the Protocol Decision regarding the access of farmers from the Dubăsari district to the agricultural lands located beyond the Tiraspol-Camenca road was extended until December 31, 2022.

The subject was also recently discussed at the meeting of experts from both banks of the Nistru River in the field of agriculture (https://gov.md/en/content/ensuring-unobstructed-and-permanent-access-agricultural-lands-located-beyond-camenca), with the request to exclude the deadline of August 31 previously imposed by Tiraspol, to ensure unlimited, unconditional and sustainable access to agricultural land, located after the Camenca-Tiraspol road, in order to be able to travel without barriers to/from them, to carry out the necessary seasonal works, to transport agricultural materials/equipment and harvested fruits without obstacles.
