Chisinau demands for a meeting in the „1+1” format to discuss the management of the energy crisis

Given the intensifying energy crisis and the need to discuss the problematic aspects, to clarify some technical aspects and to identify some solutions to overcome the problems that have recently arisen throughout the country, Chisinau demanded for a working meeting of the political representatives in the settlement process for the Transnistrian settlement from Chisinau and Tiraspol.

Representatives of relevant institutions from both banks of the Nistru river, as well as representatives of mediators and observers in the „5+2” negotiation format are invited to the discussions.
