Working visit of the Deputy Prime Minister for reintegration in the Anenii Noi district

The Deputy Prime Minister for reintegration Oleg Serebrian accompanied by the member of the Parliament Ana Oglindă, representatives of the territorial office of the State Chancellery and the Reintegration policies bureau made a working visit to the Anenii Noi district on Thursday, March 23.

The discussions held with the representatives of the District Council were focused on a series of topics, among them, the rehabilitation of the road sections between the localities located in the perimeter of the Security Zone, the absorption of investments and the implementation of projects aimed at community development.

In the square in front of the District Council building, the Deputy Prime Minister had a dialogue with the veterans of the military conflict on the Nistru River. In this context, it was mentioned that the problems stated by the veterans will be brought to the attention of the relevant authorities, in order to identify potential ways to overcome them.

According to the planned agenda, Oleg Serebrian has traveled to the villages of Speia and Telița. The Deputy Prime Minister got acquainted on the spot with the achievements of the projects implemented through the program of reintegration activities of the country, including the "Scufița Roșie" kindergarten in the commune of Speia, and the public institution gymnasium-kindergarten in the commune of Telița.

The representatives of the local public administration expressed their hope that the problems at the local level will continue to remain in the sights of the Government of the Republic of Moldova. For his part, the deputy prime minister encouraged the local authorities to come up with new initiatives, to access more funds from European and international programs aimed at improving the infrastructure and working and living

conditions of citizens.
