Visit of the Deputy Prime Minister Oleg Serebrian to Tvardița

The Deputy Prime Minister for reintegration Oleg Serebrian was on April 13 in Tvardița, Taraclia district, where he had the opportunity to familiarize himself with the activity of the Free Entrepreneurship Zone (FEZ) "Tvardița".

On the spot, the FEZ managers informed about the regional economic situation, the problems they face with and the support they need from the Government to carry out a prodigious activity for the good of the whole community.

FEZ representatives adressed gratitude for the opportunity to have this dialogue and openly discuss the challenges the local business community is facing. In particular, problems were reported in the export process of certain goods abroad, as well as certain aspects related to unfair competition on the domestic market/encouraging the penetration of goods produced in the region on the national market.
