The Deputy Prime Minister Oleg Serebrian has summoned the coordinators of the sectoral working groups from Chisinau

At the initiative of the Deputy Prime Minister for reintegration Oleg Serebrian, today, February 1, a consultative meeting with the participation of the leaders of the sectoral working groups from Chisinau has been called.

During the reunion the priority directions of activity for 2022 were addressed, an exchange of information and opinions has been conducted on primordial aspects which are to appear on the agenda of the working groups' meetings, as well as on challenges and difficulties encountered in the process and on suggestions to overcome them. The necessity to maintain active approaches which would be oriented on identifying technical solutions to pressing problems faced by inhabitants on both banks of the Nistru River was stressed.

Among actual subjects in need of an increased attention, the promoting of respect for human rights and removing obstacles for free circulation have been revealed, as well as continuous access of farmers to agricultural lands from the Dubasari district, improving education conditions and ensuring the right to education in the mother tongue, implementing measures to combat COVID-19 etc.

The Deputy Prime Minister Oleg Serebrian has asked the responsible coordinators to assess the activity of the working groups in their areas of competence, to draft action plans aimed at stimulating their activity, to come up with proposals of improving the legislation and to set a suitable period for relaunching joint meetings with experts from Tiraspol.

It is worth mentioning that the working groups, created in Chisinau and Tiraspol, represent technical platforms of interaction between sectoral experts, coordinated by the political representatives, and which aim to identify and propose viable solutions to actual problems, simultaneously contributing to promoting confidence building measures and supporting the settlement process.

There are currently 11 sectoral working groups and 3 subgroups:
