Comment of the Bureau of Reintegration Policies regarding the April 25 incident in Tiraspol

The Bureau of Reintegration Policies expresses its concern about the incident that took place today in the city of Tiraspol. According to available information, unidentified people fired shots from grenade launchers at the headquarters of the so-called security structures in the region. There are no casualties or injuries, according to preliminary data.

The objective of the incident that took place today is to create pretexts for tensioning the security situation in the Transnistrian region, which is not controlled by the constitutional authorities. In this context, the Bureau of Reintegration Policies calls to keep calm and, together with the relevant national institutions, monitors developments in this case.
