We notice a continuously growing pattern of requesting national model driving licenses based on the exchange mechanism offered to people residing in the Transnistrian region, possessing regional documents and identity documents approved by the Law no. 273/1994. For instance, during the period of January 2017-June 2022, 26 395 Moldovan driving licenses were obtained by the Transnistrian residents.

All these figures emphasize the fact that the residents and entrepreneurs carrying out foreign commercial economic transactions from the eastern districts of the country are documented in their vast majority with documents issued by the competent authorities of the Republic of Moldova and comply with the rigors of the working national legislation.
