

Access to agricultural lands in the Dubăsari district, located beyond the Tiraspol-Camenca road, has been extended until April 1, 2023

As a result of Chisinau's continuous notifications, through the dialogue channel of political representatives in the process of negotiations regarding the Transnistrian settlement, Tiraspol informed about the extension until April 1, 2023 of the access of farmers from the Dubăsari district to the agricultural lands located beyond the Tiraspol-Camenca route.

The permanent messages from Chisinau concerned the exclusion of any deadlines in this regard as they were not established by the Protocol Decision of November 25, 2017, the elimination of unilateral restrictions and conditions, ensuring the free and unhindered movement for farmers, equipment and their agricultural inventory, unimpeded transportation of seed material and agricultural production.

We will continue to monitor the issues faced by farmers until they are resolved in a sustainable way.
