Government priorities in the field of reintegration policies

At the February 16, 2023, plenary meeting of the Parliament, the Activity Program of the Government "Moldova: prosperous, safe, European" was approved (here).

In the Reintegration of the country chapter, the following priority actions were established:

1. Continuation of the dialogue in the format of 1+1 negotiations and within the sectoral working groups in order to identify technical solutions for the most urgent problems faced by the inhabitants of the eastern districts of the country and the Security Zone.

2. Intensification of the dialogue with the international partners involved in the negotiation process regarding the Transnistrian settlement in order to maintain stability and avoid the escalation of tensions.

3. Strengthening partnerships with civil society in order to restore confidence between both banks of the Nistru river.

4. Countering disinformation actions and correctly informing public opinion on both banks of the Nistru river about the essence of the country's reintegration policies.

5. Promoting coherent policies in order to restore single national spaces (customs, fiscal, economic, educational, etc.).

6. Carrying out actions to protect fundamental human rights and freedoms in the Transnistrian perimeter.

7. Eliminating obstacles to free movement, including ensuring the permanent and unhindered access of farmers from the Dubăsari district to the agricultural lands located along the Camenca-Tiraspol route.

8. Ensuring the good functioning of Romanian language teaching schools in the eastern districts of the country and the municipality of Bender, as well as expanding cooperation with other educational institutions in the region in order to integrate them into the educational space of the Republic of Moldova.

9. Promotion of actions aimed at supporting national culture in the eastern districts of the country.

In accordance with the working procedures, the actions from the approved government program will be detailed in the action plan of the Government of the Republic of Moldova and in the relevant programmatic documents, with the establishment of product indicators, terms of achievement and the authorities/institutions responsible for implementation.
