About the joint inspections of the 5 Latin script educational institutions that rent premises in the Transnistrian region

In accordance with the existing practices and following the prior coordination, joint inspections of 5 Latin script educational institutions' premises rent in the Transnistrian region were carried out, as follows:

- August, 17: theoretical lyceum "Lucian Blaga" from Tiraspol and theoretical lyceum "Alexandru cel Bun" from Bender;

- August, 18: theoretical lyceum "Evrika" from Ribnita, Roghi and Corjova gymnasiums from Dubasari rayon.

The purpose of the inspections was to assess compliance with the sanitary-epidemiological requirements in force and fire protection rules, involving specialists from both banks of the Nistru. The experts' findings and relevant recommendations are to be reflected in a report.

Improving the activity conditions of Latin script schools from the region and ensuring a high-performance and qualitative educational process is a constant concern of the Moldovan authorities. Referring the mentioned above inspections, Chisinau always reiterates the inadmissibility of their unilateral development, in the absence of prior coordination and without the involvement of competent specialists from the right bank of the Nistru.
